EDUCATION

Case Western Reserve University Cleveland, OH
Bachelor of Science Computer Science, GPA: 3.2 Expected Graduation: May 2019

LANGUAGES

Java, JavaScript, jQuery, HTML, CSS, Less.js, Python, CoffeeScript, Flask, Django

Experience

Software Development Intern: Testive SAT/ACT prep Boston, MA **Summer 2016**

- Designed, coded, and deployed a fully functioning referral page that sends out customer text messages and emails via Twilio
- Created a suite of unit tests for the current Testive Website
- Created a mobile friendly version of the register lander page

PROJECTS

Personal Website (HTML/CSS/JS/jQuery) **February 2017**

- Personal website that displays understanding of web dev functionalities.
- Contains information about past projects, about me, and my resume (created in 3 days).

Riot API project (Django) **Winter 2016-Current**

- Creating an application that returns targeted JSON data about current and past game stats (League of Legends)
- Currently creating a user interface to access their info

Expedia Mock Application (Java/XML): **Fall 2016**

- Created Java application which returns the lowest prices for flights from and to input airports using Skyscanner API.

Weather API 7-day forecast (Python) **Summer 2016**

- Created a program in Python that properly accesses the Weather API in JSON and returns the 7-day forecast of the inputted city

LEADERSHIP Experience

Design for America: Case Western Reserve University Cleveland, OH **Spring 2016**

- Group that strives for building leadership while making a meaningful social impact
- Lead a DFA group of three, where I managed a group that worked with a local community dealing with a food desert.

TEDxYouth@CCHS: Central Catholic High School Lawrence, MA **Spring 2014/15**

- President of club; managed financial and sponsorship departments
- Led team of 35 students to organize TEDx event at high school with mission to help spread ideas and inspire the surrounding community
- Event website: <http://www.tedxyouthcchs.com/> (not created by me)
